Email: ajsuper102@gmail.com
Mobile: +91-9560659059

Skills

- **Languages**: C++, Java, C, Python
- **Frontend**: HTML5, CSS3
- **Library**: Numpy, Panda, Seaborn, Skicit-learn, Matplotlib
- **Tools/Platforms**: VS Code, Git, GitHub, Excel, Power BI, Jupyter Lab, Jupyter Notebook
- **Databases**: MySQL
- **Core Subjects**: Data Structures and Algorithms, OOP, Operating Systems, DBMS, System Design
- **Soft Skills**: Problem Solving, Team Player, Project Management, Adaptability

Projects

Restaurant Revenue Prediction | GITHUB LINK — Feb' 25

- Developed a **machine learning model** to predict restaurant revenue using historical data, enabling better business insights and decision-making.data.
- Conducted **data preprocessing and EDA** to clean the dataset, handle missing values, and uncover patterns affecting revenue
- Applied and evaluated multiple **regression techniques** using MAE and RMSE to select the most accurate model
- Deployed an interactive **Streamlit web app** for real-time revenue prediction based on user inputs.
- **Tech**: Python, Pandas, NumPy, Scikit-learn, Streamlit

Nike Sales Dashboard | GITHUB LINK — Feb' 25

- Developed an interactive **Nike Sales Dashboard** to analyze sales performance across regions, products, and time periods, providing actionable business insights
- Performed thorough **data cleaning and transformation** to ensure data consistency, accuracy, and proper structuring for analysis
- Created visualizations for key metrics such as **revenue, profit, and sales trends** using charts and KPI indicators for better understanding
- Implemented **dynamic filters and comparative analysis features**, enabling users to explore data and support data-driven decision-makinginsights
- **Tech**: Power BI / Excel, Data Visualization, Data Analysis

Training

DSA using C++ | LINK — Jul' 25

- Built a strong foundation in **data structures and algorithms using C++**, implementing arrays, stacks, queues, linked lists, and key sorting/searching techniques with a focus on efficiency.
- Applied learned concepts to develop a **Student Performance Predictor**, strengthening problem-solving skills and practical implementation of logic.

Certifications

- Cloud Computing- by NPTEL| LINK — Oct'25
- Build Generative AI Apps and Solutions with No-Code Tools – Infosys | LINK — Aug'25
- Master Generative AI – Udemy | LINK — July'25
- HackWithVertos 1.0 – 24-Hour Hackathon | LINK — Feb'24
- Responsive Web Design – FreeCodeCamp | LINK — Sept'23

Education

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; **CGPA**: 7.71 — Aug' 23-Present
- **Vivekanand Public School** — Anand Vihar, Delhi
  Intermediate (PCM); **Percentage:** 93.8% — Jun' 21 – Mar' 22
- **DAV Public School** — Ghaziabad, UP
  Matriculation; **Percentage:** 95.8% — Apr' 20 – Mar' 21
